Real Estate Resources is a licensed real estate brokerage located in Naples, Florida. Southwest Florida has experienced incredible growth over the last ten years. Despite normal fluctuations in real estate market, the Southwest Florida real estate market has not been abated. Real Estate Resources has attracted a talented team of real estate professionals who are well acquainted with the local permitting and rezoning requirements.

Specializing in land acquisition and planned urban development, Real Estate Resources has been instrumental in PUD establishment, rezoning and acquisition of Treviso Bay. Developed by VK Development Corporation, Treviso Bay is a golf course community five miles east of downtown Naples on U.S. 41 East. The PGA TOUR also planned to develop a new private membership Tournament Players Club ("TPC") within the Treviso Bay master planned community. As with all Tournament Players Clubs, The TPC at Treviso Bay will be designed to accommodate a PGA TOUR sanctioned tournament.
